RE: Commercial Availability of Navigation Devices, CS Docket 97-80

Dear Ms. Dortch:

On January 9, 2003, Dan Moloney, Geoffrey Roman, Carl McGrath and I met with Chairman Powell, Bryan Tramont and Chris Libertelli at the Consumer Electronics Show in Las Vegas. We discussed the work completed and ongoing by Motorola to meet current FCC regulations and requirements relating to the above-noted docket.

Mr. Moloney further informed the Chairman and staff of the lead time required by Motorola to produce new cable set top equipment, such as the bi-directional pod/host, in quantity once the technical specifications are completed. That lead-time has been estimated to be 18 to 24 months.

Respectfully submitted,

/S/ Christine G. Crafton

Christine G. Crafton, Ph.D.
Vice President and Director,
Broadband Policy
